

LOOKING BACK 2022

"THE NORMAN WARHORSE"

One of my most captivating engraved art pieces of 2022 was a commissioned work by my good friends Dave and Jan Millslagle, featuring the powerful Norman warhorse. These horses were bred for battle and were known for their strength, agility, and stamina. They were the perfect mounts for knights in the Middle Ages, and were often depicted in artwork as symbols of power and nobility.

There are several steps that have to be taken before I ever start the picture. First off I had to draw the horse out and cut the rider out. Then I had to recreate the saddle. From there I transferred a white chalk line to the brass and begun to do the steps above to completion. Several weeks went into this engraving

MY NEW LOGO

I am absolutely thrilled to introduce my brand new logo! As an engraver, I take pride in my work and I wanted my logo to reflect that. After many hours of brainstorming and designing, I finally came up with a logo that truly embodies who I am as an artist.

When you see this logo on any social media platform, you will instantly recognize it as mine. It is my brand and represents "LES SEAMSTER ART", my new website.
